Dear Parents/ Guardians,

As a parent of a student in LCA Class Tara, I would like to inform you about the upcoming Practical Achievement Task that your son/daughter needs to complete.

The Practical Achievement Task is due for completion by December 2024, with assessment interviews scheduled for early January 2025. While I will be supporting and guiding students throughout the process, the primary responsibility for this task rests with each individual student.

The task involves learning a new skill or completing a short course, which requires a commitment of at least ten hours of work or activity over a ten-week period. This will be done outside of class time. A qualified instructor or mentor must sign off on the student's work, and a report booklet will be filled out during class time. This task is a significant part of their coursework. Students can choose any suitable course.

However we are providing a cookery class "Healthy Cooking" which will take place every Wednesday for 10 weeks beginning on September 18th from 4-5pm in room 35. If your son/daughter wishes to complete this course they must inform me before the end of next week.

While I have provided an overview of the task to the students and will assist them along the way, it is ultimately up to them to complete the task and submit the report booklet.

If you have any questions or concerns, please feel free to contact me by phone or email at jmcandrew@boynecs.ie.

Yours sincerely,
J. McAndrew
Programmes Coordinator
